SUMMARY

I am a web developer in constant learning, oriented towards personal and professional success. Self-demanding, collaborative, self-taught and eager to continue learning. With a lot to contribute and always giving the best for success. I am a capable, skilled, responsible and quick-learning person.

My most recent job was at Mercap Software, Buenos Aires - Argentina, where I worked as a QA software tester.

In this position, I am in charge of estimates, design and execution of test cases using Testlink as an execution tool, Postman for REST API testing, assembly and maintenance of documentation.
